The purpose of this video introduction is not only to introduce yourself through video, but also to help us understand who you are.

Consider choosing a theme for your video to really get at who you are. For instance, maybe the essence of you stems from a lens of sustainability. You might also consider writing an "I am from" poem and creating your video around your poem. Here are some examples of "I am from" poems. See this link for the history of "Where I'm from" poems.

Think about:

- items found in your home: bobby pins, newspapers, discount coupons for a new Mercedes.
- items found in your yard: hoses coiled haphazardly, half chewed dog toys, etc.
- names of relatives, especially if they link you to the past: grandpa Paul and grandpa Raymond.
- sayings that were frequently said or that you say: "Cast your bread to the waters and it will come back a thousand fold" or "Wait 'till your father gets home."
- foods and dishes that you recall from family gatherings: lutefisk and lefse, black eyed peas
- childhood games you played or places where memorabilia were kept

You can use any program to make your video.

- Utilizes transitions
- Has a title and name of creator
- Provides photo and music credits, as necessary
- Explains who you are with a theme or based on an "I am from" poem (not just a timeline of your life)

Submission

- Upload your video to YouTube or Vimeo. Choose unlisted instead of private.
- Submit your URL to Canvas

***I know you could spend well over two weeks to create a video, but I don't want you to obsess over this. The main idea is to create a movie that tells us who you are and that allows me (and you) to understand that you can produce video. For the OCD types (myself included), don't spend every waking moment on this! :)
